

Automation + Productivity = Profitability

Left to right: Claire Fournier, Executive VP, John Ruggieri, President, SunDance Graphics, Steve Jacobs, Press Sales & Service, Inc. (Sakurai Dealer)

“Our Sakurai 575 took us from art prints to high end printing”

When Audrey and John Ruggieri purchased SunDance Graphics in Orlando three years ago, they were a fine art printer appealing to commercial buyers. As a female owned business with a strong desire to expand capabilities, SunDance Graphics investigated all half-size press options and then selected a 575SDC from Sakurai.

“The Sakurai 575SDC enabled us to offer our customers 5-color printing plus coating. We’re now producing general commercial work including quality booklets, brochures and annual reports, fulfilling our dream to become a full service printer. We were so impressed with Sakurai responsiveness - from sales support - to training and service. They leaped through hoops for us”.

The 15,000 IPH Sakurai 575SD is one of the most fully automated presses in the world. Available in up to 6 colors plus coating and perfecting, the 6-up, 23” x 31” 575SD is the mid-size alternative to 40” presses.
